Beautiful Jacksonville Beach

Originally from Pennsylvania and raised in Florida. I grew up swimming and playing softball in Jacksonville and watching my mother in the Real Estate business. After high school, I attended the University of north Florida and studied Political science and Philosophy. Not long after graduating college, I met my husband and began working in the construction industry. Side by side we ran a successful business with 30 employees. We then moved to the Dominican Republic and traveled the Caribbean and part of South America. Upon moving back to the States I made the decision to

enter the Real Estate family. I am a second-generation REALTOR and see the benefits of giving back to community. My attention to detail and professionalism shows my passion for Real Estate.
