True Love in Ocala

Sherri began her career in the early 1980's and has, along with her Broker husband, Bert, nurtured a family business that has become an institution in Central Florida and remains a major referral center. **Sherri** is the *2014 President of the Florida REALTORS®* and is also the *CEO/Team Leader* for several Keller Williams offices in north central Florida. Their **KW Cornerstone Realty** market includes offices in Ocala/Marion County, a very lovely equine community; Gainesville/Alachua County, home of the fighting University of Florida Gators & Shands Research Hospital; and The Villages, the fastest growing retirement community in the United States. **Sherri** is an

accomplished equestrian in her own right, and, when not tending to Keller Williams business, loves nothing more than a brisk ride through the meadows and woodlands. She holds many designations and enjoys the opportunities to travel and practice her specialty, which today revolves around international sales. Nestled in the heart of Central Florida, Ocala has scenic landscapes, moss covered trees scattered across rolling hills and horse farms with easy access to all that is Florida, totally accessible in just a couple of hours. "This is paradise and Bert, Christine, Abigail and Daniel make it so much more so each and every day."
